Re: Dockets # 98N-1230

96P-0418

97P-0197

In order to eliminate illnesses and deaths caused by contaminated eggs, egg borne diseases must be greatly reduced.

This agency must:

- put bacteria warning labels on eggs
- regulate egg refrigeration temperatures
- prohibit the cruel and inhumane practice of destroying the hen's immune system through forced molting

As cruelty and contamination are linked, the April 1998 ban on forced molting must be granted without further delay.
of concerned egg consumers;
Jane DeRue
